

Series 0206 Milling Device

I. Pictures

II. Main technical parameters

Model	020612	020618	020620
Total length (mm)	1376	1376	1376
Total width (mm)	1727	1727	1727
Total height (mm)	935	935	935
Milling width (mm)	300	450	500
Maximum milling depth (mm)	150	150	150
Maximum side movement distance (mm)	600	600	600
Operating flow (L/Min)	120-130	130-140	130-140
Allowed maximum pressure (MPa)	21	21	21
Operating voltage (V) (optional)	DC12/24	DC12/24	DC12/24

Weight (including hanging parts) (Kg)	580	887	980
Selection of accessories	The cutting head replacement tool is optional and selectable		
Applicable model	Skip steer loader (equipped with large flow output)		

III. Main characteristics of product

1. Multiple milling-drum size options for skip steer loaders with a large flow hydraulic operation system for milling asphalt pavement.
2. For simple roughening on cement pavements.
3. For the removal of road markings and zebra crossings and for polishing cement pavements to prevent slipping.
4. For the side movement of the milling device to achieve a better milling effect without the need for construction after bestriding on the kerb and channels.

Note: HCN products are constantly updated and improved for users. Rights to change the parameters and design are reserved without notifying the users in advance. In case of possible appearance and color differences between the products shown in the pictures and the actual products, the actual one shall prevail.
