

Series 0208 Snow Shovel

I. Picture

II. Main technical parameters of product:

Technical parameters of series 0208 snow shovel				
Model	020860	020872	020884	020896
Total width (mm)	1500	1830	2130	2430
Total length (mm)	1010	1010	1010	1010
Height (mm)	978	978	978	978
Transport height (mm)	635	635	635	635
30° working width (mm)	1300	1580	1845	2100
Deflection angle (hydraulic control) (°)	±30	±30	±30	±30
Weight (including hanging parts) (Kg)	280	295	312	325
Height for avoiding obstacle (mm)	• 80	• 80	• 80	• 80
Allowable maximum pressure (M pa)	21	21	21	21
Hanging and installing model	Skip steer loader		Skip steer loader/small loader	

III. Main characteristics of product

1. Capable of turning left and right with an angle of $\pm 30^\circ$ under hydraulic control; ease of changing the direction of

cleaning in a quick and easy manner.

Convenient for removing thin snow from sidewalks and carriageways.

2. Reinforced steel structure, replaceable bottom wear-resistant blade, and blade bolted to snowboard, providing convenient and fast operation. Nylon blade available.
3. Capable of turning over obstacles and preventing damage to parts; automatic return of shovel plate under the action of springs after passing obstacles.
4. Optional sight width bar and front bezel.
5. If it is equipped on a small loader, the client shall independently install the position limiter for bucket tilt-back and the skip bucket as per the condition of the main equipment.

Attachment: HCN products are constantly updated and improved for users. Rights to change the parameters and design are reserved without notifying the users in advance. In case of possible appearance and color differences between the products shown in the pictures and the actual products, the actual one shall prevail.
