

Series 0307 Rotary Saw

I. Picture

II. Main technical parameters of product:

Technical parameters of rotary saw			
Model	030740	030760	030770
Total length (mm)	1155	1420	1420
Total width (mm)	1200	1200	1200
Total height (mm)	760	820	820
Cutterhead diameter (mm)	400	600	700
Maximum cutting depth (mm)	120	220	270
Weight (including hanging parts) (Kg)	302	348	350
Operating flow (L/Min)	50~60	50~60	50~60
Allowed maximum pressure (Mpa)	21	21	21

Operating voltage (V) (optional)	DC12/24	DC12/24	DC12/24
-------------------------------------	---------	---------	---------

III. Main characteristics of product

1. Widely for operations on the sites of construction projects, municipal projects, highway traffic, and so on.
2. With the application of diamond, the saw web is characterized by sharp cutting, resistance to wear, and so on.
3. With the automatic spray function, it effectively reduces power permeation during cutting and cools down the saw web.
4. With a large torque, rotation speed , and small volume, the new motor reduces the space occupied and efficiently completes operations.
5. The cutting protective cover effectively ensures the safety of operators.
6. Light operation weight, easy use, and applicability to multiple vehicles (straight driving of vehicles must be ensured during cutting).

Note: HCN products are constantly updated and improved for users. Rights to change the parameters and design are reserved without notifying the users in advance. In case of possible appearance and color differences between the products shown in the pictures and the actual products, the actual one shall prevail.
