

## Series FL01 Bevel Sweeper

### I. Pictures:

### II. Technical parameters:

Technical Parameters of Forklift Sweeper	
Model	FL0172
Total length (mm)	1500
Total width (mm)	2178
Total height (mm)	874
Total weight (including hanging parts) (Kg)	420
Sweeping width (mm)	1800
Swing angle (°)	±30 (mechanical steering)
Brush roller diameter (mm)	• 800
Working pressure (MPa)	16-21
Operating flow (L/Min)	80-100
Hanging and installing model	2 t/ 3t forklift

### III. Main features of the product

Capable of cleaning snow, dirt, and compacted ice from places including street edges and corners quickly, without

damaging the pavement of roads; characterized by convenient installation, flexible use, high work efficiency, reliable quality, outstanding performance, and so on.

1. With polypropylene and steel wire mixed brush roller, mainly used for removing natural loose snow, with the advantages of wear resistance, high elasticity, and bending resistance without causing damage to the road surface.

2. Capable of swinging from left to right for snow removal through the mechanical drive, with an adjustable swing angle of  $\pm 30^\circ$  to change the sweeping direction.

Note: HCN products are constantly updated and improved for users. Rights to change the parameters and design are reserved without notifying the users in advance. In case of possible appearance and color differences between the products shown in the pictures and the actual products, the actual one shall prevail.
